

Muhammad Hadee Butt

Junior MERN Stack Developer

✉ muhammadhadeebutt@gmail.com ☎ 03278020047 📍 Lahore,pakistan 🌐 Muhammad Hadee Butt

Summary

Junior MERN Stack Developer with 6 months of professional experience building and maintaining full-stack web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in developing REST APIs, implementing authentication and authorization with JWT, integrating APIs, building responsive React interfaces, debugging application issues, and working with Git/GitHub in a collaborative engineering environment. Strong foundation in JavaScript (ES6+), OOP, data structures and algorithms, and problem solving

Skills

Frontend: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST API Development, Python

Databases: MongoDB, Mongoose, PostgreSQL, Prisma ORM, Data Modeling, Query Optimization

Authentication: JWT Authentication, Authorization

Tools & Platforms: Git, GitHub, Postman, VS Code, Docker, ChatGPT, Claude, Codex

Core: OOP, Data Structures & Algorithms, Debugging, Problem Solving, API Integration

Professional Experience

Techset solutions, Junior Full Stack Developer 04/2026 – Present | Lahore

- Developed and maintained responsive full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), along with Next.js and Python.
- Built reusable and responsive UI components using React.js, Next.js, Tailwind CSS, and JavaScript (ES6+).
- Developed and integrated RESTful APIs using Node.js and Express.js for application features and data workflows.
- Implemented authentication and authorization using JWT and integrated secure user access workflows.
- Worked with MongoDB and PostgreSQL, including database schema design, data modeling, and API integration.
- Debugged application issues, investigated API and frontend problems, and implemented fixes.
- Used Git and GitHub for version control and collaborated with developers in a cross-functional engineering environment.

Projects

Lean E-Commerce System

MERN Stack | React.js | Node.js | Express.js | MongoDB

- Developed a full-stack e-commerce application using the **MERN stack** for product, authentication, and order management.
- Built and integrated **RESTful APIs** for product management, authentication, orders, and user workflows.
- Developed responsive and reusable user interfaces using **React.js** and modern frontend development practices.

Amanah – Social Media & Community Platform

Next.js | React.js | Node.js | PostgreSQL | Prisma | Tailwind CSS

- Developed features for a full-stack social media and community platform inspired by **Facebook and Workplace**, focusing on user interaction and collaboration.
- Built responsive and reusable UI components using **Next.js, React.js, and Tailwind CSS**.
- Developed and integrated **RESTful APIs** for user profiles, posts, comments, likes, follows, notifications, and other social features.
- Worked with **PostgreSQL and Prisma** for database management and contributed to authentication, media handling, and backend functionality.

Education

University of Education, Bachelor of Science in Information Technology (BSIT)

09/2024 – Present
